

2002 Reviewers

Volume 1

The articles appearing in *IEEE Pervasive Computing* are the result of hard work by many people. First are all the authors who submitted a paper. Whether or not your submission was successful, we thank you for choosing our title as where you'd like to see your best work appear.

Authors often tell us how much they value the reviewing process. We would like to thank all of you involved in that. Your expertise, care, and attention adds to the quality of our title and maintains standards within our subject. If we omitted your name, we sincerely apologize; please send us your contact information and we'll do better next time.
